

Ghost Sherpa.
Built for scale,
wired for profit.

Our Mission

At Ghost Sherpa, our mission is to help agencies, in-house teams, and business leaders conquer skill gaps and scale with confidence. We provide expert, flexible support—whether through project-based work, fractional help, or full-time staffing—seamlessly integrating into your team to deliver strategic, high-quality outcomes.

Guided by integrity, partnership, and excellence, we exist to be the trusted partner that empowers brands to grow quickly, profitably, and without limits.

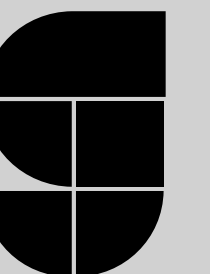

The Challenge

Fluctuating project needs and a team limited by size and specialized skills makes it difficult to profitably scale.

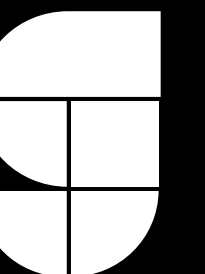

Our Solution

Ghost Sherpa provides expert, nearshore **staff augmentation** and **project-based support** that helps you grow quickly and profitably.

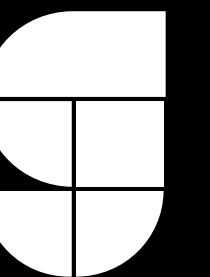

We help you profitably grow in two ways:

- Staff Augmentation
- Project-Based

Our pricing model adapts to the pressures you face.

Project-Based Support

One Time

* What it includes:

- You'll get a fixed-scope project with a clear start and end—like a new website, branding revamp, or an SEO audit and implementation sprint.
- We'll agree upfront on deliverables, timelines, and pricing.
- No need for a weekly minimum—this is a fixed-rate or hourly service.
- You'll have a dedicated project team for the full duration, along with project management support and involvement from our Department Directors.

* Advantages:

- You'll know exactly what you're getting, when you'll get it, and how much it will cost.
- It's a one-time investment with no long-term commitment—ideal for budget planning.
- We'll bring in the right experts tailored to your specific goals.
- You're paying for an outcome, not just hours or people.

* Ideal for:

Overflow work, high-stakes pitches, specialized needs, or one-time initiatives.

Monthly Recurring

* What it includes:

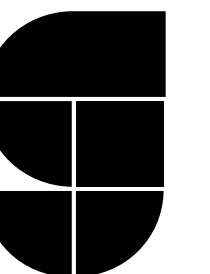

- You'll get a fully-managed project with clear monthly deliverables— like social media management, SEO optimization, or paid ads support.
- We'll agree upfront on deliverables, long-term goals, and monthly pricing.
- No need to send us what you need completed each week—we'll take care of strategy and support without any involvement on your side.
- You'll have a dedicated team of experts managing your monthly deliverables, along with project management support and involvement from our Department Directors.

* Advantages:

- You'll know exactly what to expect each month—deliverables, dates, and costs.
- Our contracts are flexible—cancel at any time with a 30 day notice.
- Our team of experts work together to tailor their work to your specific goals.
- You're paying for a long-term partner, not just hours or people.

* Ideal for:

Long-term strategy, overflow work, specialized needs, or white-label initiatives.

Staff Aug

Fractional Support

* What it includes:

- You'll have access to specialized team members—like an SEO strategist, UI designer, or paid media specialist—for a set number of hours each month.
- We'll support you with monthly planning and prioritization, and our work can span across multiple service areas.
- You'll also benefit from ongoing optimization, regular reporting, and strategic guidance.

* Advantages:

- You get continuous expert support without the cost of a full-time hire—perfect if you're growing and need flexibility.
- We help you maintain momentum and build on learnings over time.
- Your monthly priorities can shift as your needs evolve.
- We'll proactively suggest improvements and iterate to keep things moving forward.

* Ideal for:

Bringing in senior talent without the full-time cost, covering bandwidth gaps, or testing out an extended team setup.

Full-Time Support

* What it includes:

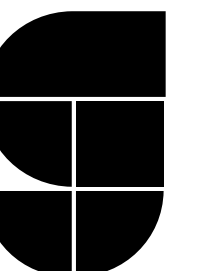

- You'll have a full-time team member (or more) dedicated exclusively to you.
- They can be fully embedded into your systems, Slack channels, and meetings.
- We handle management and quality oversight from our side.
- You can bring in roles like a UX Designer, Developer, or Paid Ads Manager—whatever you need.

* Advantages:

- Your new team member will feel like part of your internal team from day one.
- You'll move faster thanks to someone who understands your business inside and out.
- We take care of recruitment and HR, so there's no hiring hassle for you.
- You'll benefit from high consistency, with the same person building long-term value every day.

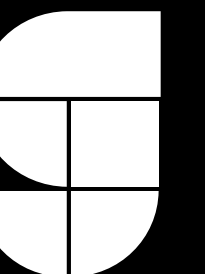

* Ideal for:

Long-term needs, scaling quickly, supporting enterprise-level operations, or delivering under a white-label setup.
